2021 CONFERENCE INVITATION

TAAE'S 31st Annual Conference and Exhibition

"Meeting the Challenges of Today, for the Success of Tomorrow"

VIRTUAL CONFERENCE FEBRUARY 4 - 5, 2021

President's Message

Dear TAAE Members:

As I write this message, my heart is filled with concern and hope for every educator and student in our great state. My concern for the educators, as each of you can imagine, is that we keep safe and healthy for ourselves and students. I feel certain that we can handle the constant changes that are bombarding our daily existence. For our students, they must learn ways to keep themselves healthy and grow new and lasting relationships with their teachers and peers.

But hope...how I hope that educators understand how much students need you. I feel confident that each of you find ways to create calm in the chaos of this pandemic for our students. Protect yourselves and model that for your students as they need you in their lives every day. Our students, especially, need that consistency and structure that only you can provide.

We are in a whole new world. Who knew that six months would bring about the level of overhaul we are having to make in the educational delivery system?

But you know what? As one of my awesome former teachers used to say, "We get more done on this campus before noon than the regular campuses get done all day!" THAT is what we are! The AEP's and the DAEP's are warriors for our students, your fight is not alone, it does not go unnoticed!

We, at the TAAE, are also in the process of changing to meet the needs of our members. We are planning some great professional development opportunities for October 2020 and for February 2021. We are going to keep our presentations virtual and hope that you will join us for some interesting updates and Best Practices for AEP's and DAEP's.

John C. Maxwell said, "Change is inevitable. Growth is optional." Let's not give up on the growth potential we have and how we can model dealing with change for our students. I challenge you to find creative ways to participate in professional development with TAAE, it will be specifically targeted just for you.

Know that your TAAE Board and everyone else associated with the Texas Association of Alternative Educators are looking forward to seeing you participate in our 31st Annual (now) Virtual Conference, February 2021...unless that changes ;-)

Sincerely,
Janna McCollough
TAAE President 2019-2021

11:00AM - 12:00PM Flip Flippen "Capturing Kids' Hearts"

Flip is founder and chairman of The Flippen Group, one of the fastest-growing educator training, corporate talent, and team development companies in North America. Flippen associates give themselves relentlessly each day to "Building relationships and processes that bring out the best in people."

Flip developed the theory of Overcoming Personal Constraints (OPC) to accelerate personal effectiveness, by identifying and breaking debilitating behavior patterns that limit performance and hinder growth. He and his team developed the world's most sophisticated psychometric assessment instrument, capable of identifying personal constraints and prescribing methods for changing behavior.

The theory and practice of Overcoming Personal Constraints are being used in board rooms, locker rooms, and briefing rooms to improve individual and team performance around the world.

1:00PM- 2:00PM Manny Scott "The Power of One"

An original Freedom Writer whose story is told in part in the 2007 hit movie, *Freedom Writers*, Manny Scott has energized almost two million leaders, educators, volunteers, and students worldwide with his authentic, inspiring messages of hope. On the road up to 300 days per year for the last two decades, Manny Scott is on a mission.

By age 16, Manny's story was almost over: His father was incarcerated, he missed 60-90 days of school annually from 4th to 9th grade, he dropped out of school at age 14, he lived in 26 places by age 16, and his best friend was brutally murdered. Sensing that the end of his life was near, Manny sat down on a park bench, and considered how he would make others feel the depth of despair and anger roiling in his soul. He says, "When I look back, I now see that I was heading down a path that would have destroyed me."

Then, several individuals entered his life and helped him turn the page. He returned to school and ended up in the back of Erin Gruwell's English class—a group now known worldwide as the Freedom Writers, portrayed in the 2007 hit MTV movie. She and several others helped Manny go from Fs and Ds to As and Bs. They helped him become the first person in his family to graduate from high school and go to college.

Through very hard work, and with the help of others, Manny is now living the life of his dreams.

In 2007, he founded Ink International, Inc, an education consulting firm that has empowered nearly two million people to improve the quality of not only their own lives, but also the lives of those around them. He has helped hundreds of organizations raise student achievement and leader effectiveness in 49 states and five continents; and, he has helped prevent thousands of dropouts and suicides.

Title: "Collateral Damage: Educational Equity and Dropout Prevention"

Description: Every 26 seconds a student drops out of high school. That is approximately 138 students in one hour, the length of a typical TAAE presentation. When we look at our dropout population, we know that it mirrors our alternative education population. Research shows that students leave school because of push, pull, or drift out factors. By addressing educational equity, we can begin to minimize the collateral damage of students dropping out prior to high school completion.

2020 "BEST PRACTICE AWARD"

INSTRUCTIONS & CRITERIA

Application

\$500 TAAE AWARD for "Best Practices" in Texas Alternative Schools"

SUBMISSION DEADLINE: RECEIVED by TAAE by December 1, 2020

This TAAE sponsored contest will focus on established classroom practices presently being utilized in an alternative school, DAEP, AEP, JJAEP, charter school or School of Choice setting. This is a "Best Practice Award" for alternative schools that is designed to spotlight practices implemented in an alternative classroom setting. The purpose of the award is to generate ideas and share outcomes regarding alternative classroom practices that are working throughout Texas. It is the desire of TAAE to recognize "outstanding and promising classroom practices" at our annual conference each year and disseminate those ideas to our TAAE members through our newsletter as a learning tool. Up to two submissions will be selected for a \$500 cash award for each school. Awards will be granted directly to teachers or to a school, depending on the best practice's scope of impact, and will be posted on the TAAE website for review.

Instructions

To be considered for the [TAAE Best Practice Award](#), answer the following questions on a separate paper. Attach this form to your submission and return to TAAE by December 1, 2020.

- Title of Best Practice
- What areas does the Best Practice impact? (Math, reading, special education, school climate, and staff development are some examples.)
- Description of the problem or research that motivated its implementation. (This is done either in a 1-2-3 or paragraph format.)
What is the history of the program/project. Here are some questions to consider:
 - How did the program get started?
 - What was the need?
 - What was the focus?
 - What population did you address? Why?
- Procedure or process of implementation. (Again, this is descriptive; either 1-2-3 or paragraph format.)
 - Who or what was instrumental in design and implementation?
 - How did your best practice take shape? (Materials used/needed?)
- Report results. This is specific to the impacted area. Listing of AEIS results if used to evaluate the practice. This must be highly descriptive:
 - How were students needs met? How was the goal achieved ?
 - What was it like before the program was implemented?
 - What was it like after the program was implemented?
 - Include data. (Share data with us that shows student progress, academic gain, behavioral change, etc.) was any other evaluative criteria used? What did it show? Survey results.
